EXPLANATORY NOTES

Introduction

This publication is issued each month as a supplement to the annual *Catalogue of Publications and Products, Australia* (1101.0) of the Australian Bureau of Statistics, which lists current ABS publications and gives brief descriptions (abstracts) of their contents. In addition, a *Publications Advice* (1105.0) is issued each Tuesday and Friday listing publications released on the day of issue and expected releases on the following five days (Canberra Office) or two days (State Offices).

2. Publishing News contains brief descriptions of the contents of new publications, describes changes in ABS publications and shows other information of interest to users of ABS publications.

Publication prices

3. A single price now applies to publications despatched by surface mail, both within Australia and overseas, and to counter sales. Airmail rates are available on request.

Mailing service

4. Clients who wish to receive free or priced publications on a regular basis may use the ABS Publications Subscription Service. For further details please refer to the back page of this publication.

5. Clients who already use this service and who wish to amend their requirements should quote their account number when contacting ABS. The account number is

6. Renewal notices are sent to all subscribers annually in respect of the subscription year commencing on 1 January. Payment for priced publications is required in advance and should accompany renewal notices returned to ABS.

Statistical information service

7. Each ABS office has an Information Service to assist clients. The service is designed to answer inquiries from clients on available official statistics, including statistics not published for economic reasons. Unpublished statistics cover a variety of topics such as population, dwellings, building, imports, exports, shipping, etc., in the form of computer printout, microfiche, magnetic tape or specially prepared tables.

8. In cases where a considerable volume of data has to be specially extracted or where a regular statistical service is required, a charge will be made.

8130.0 *Information Paper: Australian Bureau of Statistics Business Register — Recent Developments, 1991*

The majority of major economic censuses and surveys conducted by the ABS use the business register, which carries information on the structure of each business, address and contact information, industry classification and historical employment data. This paper provides an overview of the register, the major elements of the current upgrade program and the impact of the most recent developments. In brief, the developments will lead to improvements in the quality of statistical series whose population frames are drawn from the register, reductions in the reporting load on businesses but may also lead to a short term decrease in the reliability of some series. The size and significance of, and the series affected by, these changes are also discussed.

8207.5 *Manufacturing, Western Australia, 1988-89* (\$12.50)

Contains data from the annual Manufacturing Census, including summary of operations by industry class; type of employment and components of turnover; and selected items by employment size group and statistical division.
